

How The Internet Changed The World

"The internet's biggest impact on SMEs has been as a great leveller, making it possible for a small firm to be a global company from day one, with the reach and capabilities that once only large companies could possess," says Charles Roxburgh, a director at the management consultancy McKinsey, which has been researching the impact of the web on the global economy.

Asia has the highest portion in the internet shopping (estimated will be 39.7% by 2016) Indonesia on line business growth almost 200% within 5 year (from 2011 - 2016). The rapid growth in Asia-Pacific sales is a result of several factors. Three Asia-Pacific markets—China, India and Indonesia—will see faster B2C ecommerce sales growth than all other markets worldwide this year, while Japan will continue to take a large share of global sales.

Internet Shopping

Internet shopping as a trend continues to expand rapidly, and is fuelled by the increasing use of smartphones and tech-savvy customers. This represents an opportunity for brand owners to introduce two different packaging types, one geared to traditional store display, featuring high quality graphics, and one designed for internet sale. This is, in essence, nothing more than a brown shipping container. Amazon.com Inc.'s Annual Revenues for the full year 2013 of \$74.5BUSD. This was 21.9% above the prior year's results.

It changing the way how product pack. In the usual shopping – either paper of plastic bag will be used – but with internet shopping it is the ERA of Corrugated Boxes.
