## Ma's Unmanned Supermarket Opened Today, *No Salesman, No Cashier*

Jack Ma's supermarket from July 9, 2017 opened yesterday in Hangzhou, open 24 hours, with no operator, no cashier. Cost cut so stay 1/4 only. The supermarket owner just needs to add stock every morning. All in shock, so soon came. Conventional supermarkets will lose competition. Ma's first unmanned supermarket is located in the center of Hangzhou, feeling the whole of Hangzhou today, the public is estimated to be crazy. The entrance is lined up a long queue, a lot of people waiting in line waiting.

Use mobile phone Taobao or pay treasure sweep code directly into the store. We estimate that we all want to experience the convenience of unattended shopping. Everything looks like the traditional supermarket no difference. However, the payment system will automatically identify your goods at the door, automatically from the payment of deduction. Automatic chargeback information on your phone.

Whether you want it or not, like it or not, like it or not... Indonesia must immediately do the acceleration to catch up ... if not want more left behind.
