

Asia -Pacific's Leading Corrugated Manufacturing Show

Introduction

SinoCorrugated South 2014 is Asia-Pacific's leading trade show for the global corrugated manufacturing industry. The event features the latest, most innovative corrugated equipment and consumables on the market. As a sourcing platform for manufacturers of corrugated boxes, honeycomb paperboard, paper stock models and paper pipes, the show attracts manufacturers, buyers and end-users alike. It is a must-attend event that sharpens participants' competitive edge by providing networking opportunities, technological updates and news of the latest industry developments.

- Over 50 local and international trade delegations

▶ Six Dedicated Zone

- Digital Printing Zone
- Electronic Monitoring Code Zone
- Packaging Paper Zone
- Ink and Printing Consumables Zone
- Flexographic Printing Zone
- Paper Honeycomb Zone

The Origins of SinoCorrugated

The first ever edition of this corrugated show took place in 2001. At the inaugural event, there were 171 exhibitors, all makers of corrugated product manufacturing equipment, on-site. SinoCorrugated 2013 attracted more than three times that number when it welcomed 600 exhibitors. In the corrugated box industry, SinoCorrugated is today not only one of the leading shows, it is also one of the fastest growing.

The boom in visitors to SinoCorrugated is even more remarkable. In 2001, the show welcomed 4,275 visitors from the corrugated box trade. Twelve years later, this number was six times higher as 26,293 visitors made their way through the doors of SinoCorrugated 2013.
