

SinoCorrugated 2015 Attracts the Heavyweights of Box Manufacturing from Around the World!

SinoCorrugated 2015 attracted worldwide leading corrugated trade bodies

World-class professionals connect and share up-to-the-minute market information

TAPPI International Seminar was successfully held in Hall N5-M51

Day 2 in Review

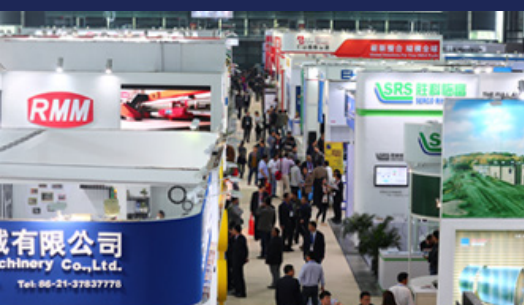

The second day of SinoCorrugated 2015 gave the local and international packaging industry more sharp insights into the latest manufacturing and processing solutions. Thousands of visitors are making return appearances to take part in forum activities where hot topics in corrugated box manufacturing were actively discussed.

It helps corrugated box manufacturers make efficient purchasing decisions and learn about new products, cutting edge technologies and market dynamics. It is also a powerful-

ly effective, unique channel via which buyers engage suppliers.

Over 100 experts discussed popular industry topics on the second day of the TAPPI seminar. Attendees learned about testing to TAPPI standards; the process understanding; insight to the functions and capabilities of various types of equipment, like Single Facers, Roll Stands and Corrugating Rolls; the Business Outlook for the United States and China; Steam Joints, Siphons, and Systems for High Speed Corrugating Machines.

China Corrugated Industry Training Week of this year offers you a value-enhancing selection of interactive on-site and off-site events. The week comprise TAPPI International Seminar, ACCA's 4th Management Committee Meeting, Global Conference of Corrugated Industry Trade Agencies, Iran Day, India Day, America Day, Japanese/Spanish Pavilion Cocktail Party, Flexographic Development Summit 2015, Corrugated Box Packaging and Future Outlook Marketing Development Leader Summit, Creative Corrugated Fashion Show, etc.

The show featured over 1400 pieces of corrugated manufacturing equipment and consumables

The exhibition site was buzzing with activities throughout the day

Delightful India Day Celebration with over 200 participants
