

International Atmosphere at SinoCorrugated 2017 Second Day Review of the Industry Gathering

The second day of SinoCorrugated 2017 gave the local and international packaging industry more sharp insights into the latest manufacturing and processing solutions. There have been 14114 domestic and international visitors to SinoCorrugated 2017 on show day two, which reached accumulatively of 28641 visitors for the first two days of 2017 edition; meanwhile, a total of 8510 domestic and international visitors have attended SinoFoldingCarton 2017, which reached a total of 15708 visitors until now; and 2848 domestic and international visitors to China Packaging Container Expo 2017, that is a sum of 6511 visitors who have visited the Exhibition on the second show day. The live steam of the exhibition has also achieved an impressive amount of viewership. Furthermore thousands of visitors took part in forum and seminar activities where hot topics about the corrugated box

manufacturing sector were actively discussed. This knowledge helps corrugated box manufacturers to make efficient purchasing decisions as well as to learn about new products, cutting edge technologies and their market dynamics. The activities were also an effective and unique channel in which buyers could engage with international suppliers.

One of the highlights of the day was the Corrugated World Forum as well as new machinery introductions from exhibitors across all halls. Moreover several experts discussed popular industry topics during the TAPPI Seminar. Attendees learned about functions and capabilities of various types of equipment such as Single Facers, Corrugating Rolls; Steam Joints as well as Systems for High Speed Corrugating Machines.
